What is a Children's Centre?

There are currently 7 Children's Centres across the Borough and each one is slightly different as they are responding to the needs of their local communities. They are there to support children (age 0-5) and families through play sessions, health care services, employment advice and information covering all aspects of bringing up a young family. They also offer some Family and Adult Learning sessions.

The Family Information Service works with each of the centres and runs regular drop in sessions through its outreach programme. We hold information on all that is happening at the centres or you
